technetix

DBx platform

BLA v3.22.18

Software release notes

Contents

1   Introduction

Technetix is pleased to announce that the latest 3.22.18 version of the BLA software, for controlling our DBx platform (including DBC-1200 Lite) from Android devices, is now available for download from our website **technetix.com**

IMPORTANT: Please manually uninstall any versions prior to 3.13 before installing this version.

Due to Android security updates your backups will be stored in a different folder in the Android filing system. Please make a backup of any existing backups before uninstalling. A new folder will be created when a backup is saved with the new version. In that folder you can paste the old backups if desired.

If used in combination with BLL for Windows, make sure you only use the most recent version (3.22.18 at the time of writing)

2   Product definition

2.1 Resolved bugs

■ DBDS-F-5-4 module equalisers are now read correctly

2.2 Known bugs or missing features

■ DBDS-B-2-1 modules are not handled correctly
■ Optical modules are only supported in DBC or DBD housing
■ DBE-1200 amplifiers only support configuring 3 downstream modules

2.3 New features

■ None

2.4 Supported devices

This version of BLA supports:

- DBC-1200 Lite
- DBC-1200
- DBC-1200S
- DBC-1200Sv2
- DBD-1200
- DBD-1200v2
- DBE-1200v2
- DBE-1200S
- DBE-1200Sv2
- DBC-1200 node
- DBD-1200 node
- DBD-1200v2 node

2.5 Release history

Version	Release date	Notes
3.22.18	23/12/2022	Fixed DBDS-F-5-4 EQ bug
3.22.8	10/06/2022	Support DBC/DBD node, DBUS-C-2, calculations corrected
3.13	09/07/2021	Support DBD-1200 v2
3.12.2	17/08/2020	Support DBDS-B7-4, DBDS-F5-4
3.11.0	12/06/2018	Support DBDS-B7-1(ET), DBDS-F5-1
3.10.0	23/03/2017	Support for DBE-1200S, DBDCM-B2
3.9.110	15/02/2017	DBDCM-A1 v2.22 and new downstream modules
3.9.97	03/01/2017	Beta release
3.9.88	19/10/2016	DBE-1200 v2 and DBDCM-A1 v2.01 support
3.9.59	27/05/2016	DBDCM-A1 v2.00 support
3.9.44	31/01/2016	.xml backup for DBE-1200
3.9.42	10/12/2015	DBE-1200 support
3.9.30	10/06/2015	DBDS-B2ET support
3.9.19	08/05/2015	DBDS-B2 support for DBC-1200
3.8.3	26/01/2015	42/54 MHz diplexer support
3.2	27/11/2014	DBDCM-A1 FSK support
2.0	15/07/2014	Initial DBx release
